

Post-Doctoral research assistant to review and synthesize the literature on climate change, agriculture, sustainable development goals and deliver a draft white paper addressing the interlinkages between the Koronivia Joint Work on Agriculture and the Sustainable Development Goals.

The French National Research Institute for Development (IRD) is an internationally recognised multidisciplinary organisation working primarily in partnership with Mediterranean and intertropical countries. The IRD is a key French player on the international development agenda. It works based on an original model: equitable scientific partnership with developing countries, primarily those in the intertropical regions and the Mediterranean area.

IRD seeks to recruit a Post-Doctoral research assistant to review and synthesize the literature on climate change, agriculture, sustainable development goals and deliver a draft white paper addressing the interlinkages between the Koronivia Joint Work on Agriculture (KJWA - UNFCC) and the Sustainable Development Goals.

Taking these interrelations into account would enable the KJWA to better build upon synergies and address trade-offs between different options.

What you need

- Post doc/PhD or expertise in one or more specialized subject areas in Soil Science, Agriculture, UNFCCC agenda and in particular the Koronivia Joint Work on Agriculture (KJWA) process, the Sustainable Development Goals (and target)
- Excellent synthesis skills
- Excellent English editing skills

What you will do

- Establish a corpus on publications related to the topics
- Analyze and synthesize to pertinent information from these publications
- Edit manuscripts
- Meet deadlines
- Interact with IRD and FAO

Why this is a great opportunity

- This work is carried out as part of a collaboration between FAO and IRD (frequent skype, or in-person meetings with IRD and FAO)
- This work is embedded in the current international agenda at the crossroad of UN initiatives
- You will have the flexibility to keep your own working hours as long as deadlines are met
- You will gain an inside view into research carried worldwide by various bodies

Conditions

Post-doctorat IRD

Duration 6 months, starting February 1st 2020

Gross monthly salary between 2.500 euros and 3.700 euros depending and the post PhD experience (< 2 years till 10 years)

posted UMR Eco&Sols, Montpellier, France

Supervisor Dr Jean Luc Chotte
